

March 24, 2010

You are receiving this email because you have previously expressed an interest or participated in the AIAA CFD Drag Prediction Workshop or the AIAA CFD High Lift Prediction Workshop. If you receive a duplicate, I apologize for I have merged two email lists.

For those who intend to participate in the AIAA High Lift Prediction Workshop, please be reminded that the Abstract Due Date is April 2, 2010. A sample abstract format can be found on the website at <http://hiliftpw.larc.nasa.gov/Workshop1/sampleabstract.pdf>.

In addition to your previous registration on the High Lift Prediction Workshop Website, all attendees (including participants) must register directly on the AIAA website at 40th Fluid Dynamics Conference and Exhibit.

We also ask that, for planning purposes, you send us directly a preliminary headcount of the number who will attend from your company.

Thank you for your interest in the AIAA CFD High Lift Prediction Workshop.
